

CREATE TANGIBLE VALUE FROM YOUR INTANGIBLE ASSETS

Let us help you take your ideas to the world, reap value from your intellectual property and develop skills to be part of the innovation economy.

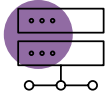

WE EMPOWER INVENTORS, CREATORS AND ENTERPRISES WITH PATHWAYS, RESOURCES AND PRACTICAL STEPS

At IPOS International, we support Singapore's future growth as a global hub for intellectual property (IP) creation, commercialisation and management. We serve the public sector, private enterprises, not-for-profits, investors, service providers and individuals through patent search and analysis, training, and IP management services. Together, we amplify creativity and enable innovation, to realise tangible economic and social value from intangible assets (IA).

Part of the Intellectual Property Office of Singapore (IPOS), IPOS International works to realise the Singapore IP Strategy 2030, a national strategy for Singapore's transformation for the future.

Data-driven Insights with Patent and Technology Intelligence

Whether you are developing a new business or product, researching the competitive landscape or staying abreast of key technological trends, patent search and analysis can be a powerful part of your toolkit. Our multi-disciplinary and multi-lingual patent experts can produce bespoke reports to inform your R&D and business decisions.

IP Literacy and Skills with Training

Equipping your team with knowledge and skills to manage IA and IP can mitigate risk, increase efficiency and create value. Our diverse range of executive programmes and professional development courses span law, technology and business, from foundational awareness to professional development for IP practitioners. We offer flexible learning formats designed to fit around your busy schedule and to suit your learning goals.

Business Growth with Intangible Assets

IA and IP are your company's most valuable assets. Effective management of these assets drives growth and protects the business for the long term. Our flagship advisory programme, Discover Intangible Assets™ is designed for enterprises to map key IA and IP, identify risk and opportunity, and align your IA and IP strategy to your commercial goals.

Now and into the future, innovative organisations, ideas, and brands drive strong economies and shape everything around us.

LET'S CHAT

We are here to support individuals and enterprises in developing IA and IP capabilities. We look forward to helping you.
